## PROFILE

---

I'm a passionate self-taught front-end web developer. My journey into the world of coding began with a burning curiosity and a love for creating things that are not just visually appealing but also functional and user-friendly. Actively engaged in learning and applying best practices through personal projects.

## SKILLS

---

HTML & CSS  
JAVASCRIPT  
BOOTSTRAP

## OTHERS

---

Git  
GitHub  
CodePen

## EDUCATION

---

Thiruvalluvar University  
**2020-2023**  
B.Sc. Computer Science

## LANGUAGES

---

Hindi  
English  
Tamil  
Malayalam  
Urdu

## PROJECTS

---

### Digital Clock

Designed and implemented a dynamic digital clock using HTML, CSS, and JavaScript. The project showcases a visually appealing and responsive interface that accurately displays the current time.

### Cricket Game

Built a cricket game using HTML, CSS, and JavaScript. Engaging UI for player selection and real-time score tracking. Responsive design ensures a seamless gaming experience. Demonstrates proficiency in front-end technologies for dynamic and interactive web applications.

### Myntra clone e-commerce

Designed and implemented a fully functional Myntra clone using HTML, CSS, and JavaScript. Replicated the e-commerce platform's key features, including product listings, dynamic filtering, and a seamless checkout process.
